F. W. Klebahn Tells Harbor **Board Consular Representa**tives of Allies Interfere

That the Honolulu representatives of the allied nations now warring against Germany will not allow an account supply of coal to be sold to the German vessels now interned in Honolulu harbor is the sensational charge PLOT TO AID HUERTA made by Frederich W. Klebahn, secretary of H. Hackfeld & Company, before the harbor commission this after-

Klebahn declared that the Inter-Island Steam Navigation Company, which he says is the only company that the German steamers can obtain any coal from at all, will give the German steamers only 10 tons a month. He said that the coal, which is shipped BROADENS ITS WORK Japan, is shipped only on the agreement that the company will not sell any coal to any steamers flying the flag of the "enemies of the allied nations," as he expressed it, unless permission to do so is granted by the consuls representing the allied nations here in Honolulu.

"Better be careful," warned Commissioner Church, "there is a reporter present." Church's caution was not effective, however, Mr. Klebahn continuing with his statement.

"When we docked the Prinz Waldemar and the Pommern at Pier 7, we promised to leave the wharf within 12 hours after requested to do so by the harbormaster," Mr. Klebahn continued, "and the promise was given in good faith. Knowing that sooner or later we would be asked to leave the pier. I, more than three months ago, tried to get coal, and after trying several times I found that the Interisland company was the only company that could give us any coal, and this s the letter I finally got on May 27 Yor!: 0. rom the inter-island company: At F "'Dear Sir: Replying to your many ton 5.

GERMAN OFFICIAL CABLEGRAMS

The following cablegram from official German sources was received to-

"WASHINGTON, D. C., June 30,-"The German attack on Gnilalipa is advancing. Between the Rivers Bug and Vistula the German and Austroand Vistula the German and Austro-Hungarian troops have reached Celz, Komarow and Zamosc and the north-ern border of the wooded lowlands along the Tanew. The enemy is re-treating on the left bank of the Vis-tula near Zawichost. An enemy aero-plane has been forced to land behind the German front and the aviators were taken prisoner.

"Near Arras on the western front was not very active yesterday. The Germans made, however, further pro-gress in the expulsion of the enemy from trenches taken during the last weeks. The enemy's charge in the 'labyrinth' north of Ecurie was re-pulsed. On the Meuse heights and west of Les Esparges the enemy by nearly uninterrupted charges since June 26 has tried in vain to win back the positions stormed by the Ger-mans. Yesterday the enemy made four violent charges, all of which failed with heavy losses."
